About Me

You get the best of both worlds because I am a visual designer who can also build user-centric digital products. Since I am very passionate about CSS and motion graphics, I can create beautiful and engaging responsive websites, apps and animations. I enjoy injecting positive energy into any team I have the opportunity to work with and I thrive on learning from people with different skill sets. I am fully invested in becoming a better problem solver and improving on my programming skills.

Professional Experience

July 2020 - Current Date

Creative Technologist at 10xEvolve

10xevolve.com

As a Creative Technologist, I have been able to learn, develop and apply many skills that have added value to this early stage startup. I have created their corporate identity and branding, website design and product wireframing, research/data gathering, and also created their explainer video animation. I have learned how to use current technologies and in my free time, I continue to refine my programming skillset.

2008 - 2020

Freelance Designer

For almost 13 years I have been running my own business, trading as Eye.Ris Concepts. I provide design services, branding and high quality photo editing for small businesses and real estate.

2008

Volunteer Illustrator and Graphic Designer

WDC - Adelaide, Australia

2006 - 2008

Senior Photo Editor and Graphic Designer

Mind The Gap - Sydney, Australia

2005 - 2006

Graphic Designer

The Warehouse Group - Sydney, Australia
